

## CONTENTS

Международная конференция «Математика и информационные технологии в нефтегазовом комплексе», посвященная дню рождения великого русского математика академика П. Л. Чебышёва: Первое информационное письмо . . . . .	7
Mathematics and Information Technology for Oil and Gas Industry International Conference commemorating the anniversary of P. Chebyshev, the great Russian mathematician. First call for papers . . . . .	10
<b>R. M. Shagaliev, Yu. N. Korzakov, Yu. V. Logvin, A. N. Petrik, A. S. Rybkin, G. P. Semyonov, A. V. Shatokhin, S. O. Chernykh, V. V. Yuzhakov</b>	
Super ECM Developments by FSUE “RFNC-VNIIEF” – for Peace-Time Industries in Russia . . . . .	12
<b>S. V. Panfyorov</b>	
Synthetic Tasks in Teacher Arsenal and Their Place in Educational Process Optimization . . . . .	30

## PHYSICS AND MATHEMATICS

<b>F. B. Betelin, V. F. Nikitin, N. N. Smirnov, E. V. Mikhhalchenko, E. I. Skryleva, L. I. Stamov, V. V. Tyurenkova</b>	
Methods and Approaches to Core Sample Simulation . . . . .	33
<b>V. P. Koshcheev, Yu. N. Shtanov, D. A. Morgun, T. A. Panina</b>	
Modelling of the Diffusion Coefficient of Channeled Particles . . . . .	45
<b>V. A. Galkin, T. V. Gavrilenko, A. A. Egorov, N. I. Ladygin, V. V. Tereshenko</b>	
Numerical Modeling of Problem of Particles with Source Coagulation . . . . .	52
<b>I. V. Bychin, A. V. Gorelikov, A. V. Ryakhovsky</b>	
Numerical Modeling of MHD-Flows with Constant Power . . . . .	57
<b>A. B. Zhuravlyov, I. S. Nikitin, V. L. Yakushev</b>	
Mathematical Modeling of the Biomechanical Response of Intrastromal Corneal Shape Correction . . . . .	63
<b>G. A. Shadrin</b>	
Photon Correlation Spectroscopy Using a Digital Video . . . . .	68
<b>M. L. Bakhmutsky</b>	
Integration Nonlinear Parabolic Equation by Explicit Finite-Difference Scheme with Adaptive Smoothing . . . . .	72
<b>A. G. Nazin</b>	
Method of Constructing Contoured Surfaces . . . . .	83

## ENGINEERING

<b>V. A. Ostreykovsky, M. A. Pogorelovsky</b>	
Stages of Development of the Theory of Man-Made Risks in the Safety Assessment of Complex Dynamic Systems . . . . .	87
<b>A. S. Ushakova, V. V. Zatsepin, A. A. Kudryashov, P. P. Povzhik</b>	
The Efficiency of High Pressure Air Injection into Light Oil Low Permeability Reservoir by the Field Application Results . . . . .	93
<b>I. N. Danilenko, D. A. Kuzin, K. S. Ignatova</b>	
Service-Oriented Architectural Patterns for Heterogeneous Information Systems Integration . . . . .	100

<b>A. S. Ushakova</b>	
Crude Oil and Core Oxidation in Presence by Differential Scanning Calorimetry for Air Injection Projects	105
<b>V. M. Eskov, D. V. Gorbunov, M. I. Zimin, G. A. Shadrin</b>	
Verification of Glansdorff-Prigogine Theorem on the Calculation of the Biosystems Entropy . . . . .	112
<b>V. V. Eskov, T. V. Gavrilenko, M. I. Zimin, Y. V. Vokhmina, N. A. Chernikov</b>	
Neurocomputing Modeling of Real Neural Network Identifiers . . . . .	118
<b>M. A. Krivitskaya, K. I. Bushmeleva</b>	
Analysis Methods Curriculum Design Under New Educational Standards Higher Education . . . . .	125
<b>P. V. Zaikin, M. A. Pogorelovsky, V. S. Mikshina</b>	
Approximation of Experimental Data Functions by High Order Polynomial . . . . .	129
<b>D. A. Fedorov</b>	
Models and Algorithms Diagnostics Atherosclerosis of Lower Extremities . . . . .	135
<b>A. V. Raskina</b>	
Non-parametric Adaptive Dual-Circuit Control of Dynamic Processes in Partial Indeterminacy . . . . .	142
<b>A. I. Pereguda, S. V. Ermakov</b>	
Methods of Information Systems Reliability Calculation . . . . .	149
<b>R. M. Kerimov</b>	
Optimisation of Subpixel Multispectral Remote Probing Using Linear Programming . . . . .	163
<b>G. N. Isakov, A. R. Manaeva</b>	
A New Approach to the Methodology of Determining the Input Data in the Construction of Mathematical Model of Floor Coverings Thermal Decomposition in Case of Fire . . . . .	168
<b>V. A. Ostreykovsky</b>	
Current Research Areas in the Evaluation of Technical Risk in the Equipment Operation Studies . . . . .	173
